

EVÉNEMENT CADOMIEN DANS LES ALPES OCCIDENTALES

Denis Thiéblemont, Philippe Lach, Catherine Guerrot
24 janvier 2020

Eychauda

Serre Chevalier

« Leptynites »

Amphibolite à
Gt-Rutile

Gt

Leptynite

Amphibolite à Gt-Rutile

Million France 1996,
actualisation 2019

Socle des
MCI

A suivre

- Cartographie précise de la formation;
- Etude structurale et pétrométamorphique;
- Datation des niveaux conglomératiques (dont si possible éléments granitiques);
- Datation du métamorphisme
 - U/Pb sur rutile;
 - Sm/Nd minéraux-RT ?
- Comparaisons régionales :
 - Alpes;
 - Bretagne Nord (« Cadomien »_{SS}).
